

**AMNESTY
INTERNATIONAL**

Amnesty International was delighted to be chosen as the beneficiary of funds raised during World Yoga Day 2008. A total of €23,394.22 (37,085.45 US\$) was raised and this was earmarked for our work on human rights abuses in China.

Working with the World Yoga Day organisers and participants was a brilliant experience and, apart from the funds raised, it brought our message to a wider community and this will result in long-lasting benefits to our organisation – and ultimately the people on whose behalf we campaign.

We wish the World Yoga Day organisation every good wish and success in their future initiatives aimed at relieving suffering in the world. Furthermore, we would encourage everyone to give them as much support as possible.
